

DESCRIPTION

KSIX Drakkar are the ideal headphones for gaming, thanks to their design, adjustable microphone and compatibility. They also include LED backlight.

Stereo gaming headset

The Drakkar headphones have an attractive and comfortable design. They assure an immersive sound experience, so that the play can keep his 5 senses set in winning the game.

Adjustable and flexible microphone

The integrated microphone is flexible, to adjust it in the most comfortable angle according to each game.

Comfortable fit

The headphones and the headset are covered with an imitation leather soft cushion. Its super comfortable fit allows to face long game hours without any interruptions.

Maximum compatibility

The Drakkar headphones are widely compatible. They incorporate audio and microphone connectors, and a Jack 3.5 mm adaptor, to make them compatible with computers (Windows or Mac), Xbox One, PS4 and smartphones.

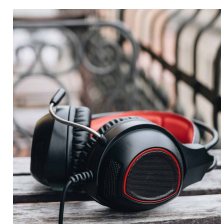

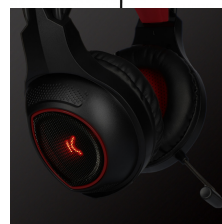

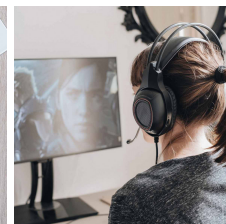

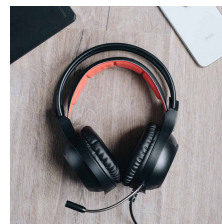

Red LED backlight

The external part of the headphones has a LED backlight in tones of red, for a lighting effect perfect to play in dark environments.
