

## DESCRIPTION

A powerful multi-device charger for a dual charging experience. This KSIX Wall Charger features 12W of maximum power and 2 USB-A ports that allow you to charge two devices simultaneously. Plus, its handy size makes it the ideal option to carry with you wherever you go.

### Two ports, more possibilities

The dual USB-A port makes it easy to charge two devices simultaneously. If you use both ports at the same time, the power intensity will be split between the two ports - enough power to stay connected!

### Compact, lightweight and durable

A charger that fits in any pocket. Thanks to its light weight and small size, it is the ideal choice for use at home, while travelling or in the office. Its flame-retardant casing features high-quality components for maximum safety and wear resistance, and the white finish gives it an outstanding premium design.

### CE and RoHS certified

The CE and RoHS certifications demonstrate the quality of our products through compliance with applicable European Community regulations and commitment to the 200/95/EC directive on the Restriction of Certain Hazardous Substances in Electrical and Electronic Equipment. A reliable guarantee against overheating, overvoltage and short circuits.
