

DESCRIPTION

The KSIX USB-A to Micro-USB charge and data cable, with a length of 1 metre, presents itself as the ideal charging accessory. Capable of supporting up to 12 W of power, it guarantees a fast charge, as well as offering an impressive data transfer rate of up to 480 Mbps. All this is combined with its convenient 1 metre length, ensuring a convenient and efficient charging and syncing experience.

Charge and sync

The KSIX USB-A to Micro-USB cable allows you to quickly charge all your compatible devices with up to 12 W of power. It also provides a data transfer rate of up to 480 Mbps, making it easy to synchronise your devices and efficiently transfer files of all types and sizes. A single cable with two indispensable functions.

Multidevice compatibility

This cable features one USB-A and one Micro-USB connector, providing maximum compatibility. At one end, the USB-A connector allows you to connect it to any wall charger, computer or powerbank that features this port, using it as a charging source. At the other end, the Micro-USB connector allows you to charge a wide range of devices, including smartphones, tablets, powerbanks and more.

1 metre of convenience

The KSIX USB-A to Micro-USB cable not only stands out for its impressive charging and syncing capabilities, but also for its convenient length of 1 metre. With this extension, you can conveniently charge and sync your devices without worrying about distance at any time.
