DESCRIPTION

The Power Cube system allows multiple outlets without cables or extensions.

Main features

With built-in 1.5m cable

Wireless charger

USB-A port

USB-C port

3 sockets: by plugging it into one socket, you get 3 sockets.

Modular system: Its modular system allows stacking to expand the number of sockets.

No blockages: Its design prevents large adapters from blocking the different sockets.

No cable tangles: Allows you to organize cables using the included adjuster.

Extension included: To be able to place the socket in the most suitable place (floor, table, chair, etc.).
