

DESCRIPTION

The smartest charging for your iPhone is now at your reach. Our 18W car charger which plugs into your car's cigarette lighter socket with included 1m USB-C to Lightning cable has been specially created for iPhone. The Made for iPhone (MFi) warranty certifies that the included USB-C to Lightning cable meets Apple's performance requirements for maximum power and safety. Plus, thanks to the addition of Power Delivery (PD) technology, it boasts maximum efficiency and charging speed: charge 50% of your iPhone's battery in as little as 30 minutes!

Charge your iPhone up to 50% in just 30 minutes

You'll never be left behind: the ultra-fast charging you can benefit from thanks to the 18W of power built into the charger will allow you to keep your iPhone always charged while using the GPS, listening to your favourite music or playing videos in your car. Save waiting time thanks to charging 3 times faster than standard 5W chargers. Get ready to charge 50% of your battery in less than half an hour! (Test conducted with an iPhone SE. Approximate values depending on device and battery capacity.)

Exclusive technology for iPhone: Power Delivery (PD)

The innovative ultra-fast Power Delivery (PD) charging protocol offers countless benefits for you and your smartphone. By intelligently adjusting your phone's input power and voltage, it prevents you from overcharging your battery. An Apple-exclusive technology that detects the end of the charging cycle, thanks to which you will never overheat your device again and keep your battery as healthy as it was on day one.

Compact, lightweight and durable

A charger that fits in any pocket. Thanks to its reduced weight and size, it is the ideal choice for use on the road. Its flame-retardant casing features high-quality components for maximum safety and wear resistance, and the elegant white finish offers a premium design.

A single charger for your iPhone, iPod and iPad

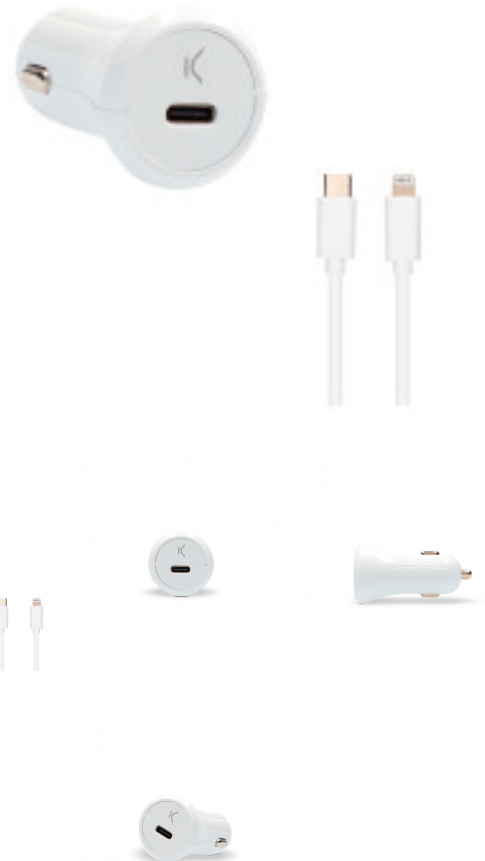

A charger to match Apple's standards. Fully compatible with iPhone 5 and later and iPad Pro/Air - a single charger to deliver the countless benefits of Power Delivery (PD) technology and fast charging to all your devices.

The new USB-C standard: for now and the future

The great usability and endless possibilities offered by the innovative USB-C standard will be your device's best ally. With a much faster speed than traditional USB-A, you will noticeably reduce charging times and have an incredibly efficient, safe and versatile technology.

Made For iPhone Warranty

The cable included with this USB-C to Lightning car charger is Made for iPhone (MFi) certified, as well as Made for iPod and Made for iPad. MFi certified products have passed numerous tests designed by Apple to ensure they meet their performance requirements. MFi certified cables are a safe and stable charging solution for your devices - discover the best way to enjoy optimal charging for

your iPhone, iPad or iPod!

A fit for any vehicle

The 12-24V input power range of this charger makes it suitable for any vehicle, be it a small car, SUV, minivan or even a truck or bus - a charger for any driver!

CE and RoHS certified

CE and RoHS certified, demonstrating the quality of our products through compliance with applicable European Community regulations and commitment to the 200/95/EC directive on the Restriction of certain Hazardous Substances in electrical and electronic equipment. A reliable guarantee against overheating, overvoltage and short circuits.
