

DESCRIPTION

The USB-A to USB-C charge and data cable from Contact, with a length of 1 metre, presents itself as the ideal charging accessory. Capable of supporting up to 10 W of power, it guarantees fast charge, while offering data transfer speeds of up to 480 Mbps. All this is combined with its convenient 1 metre length, ensuring a practical and efficient charging and syncing experience.

Charging and syncing

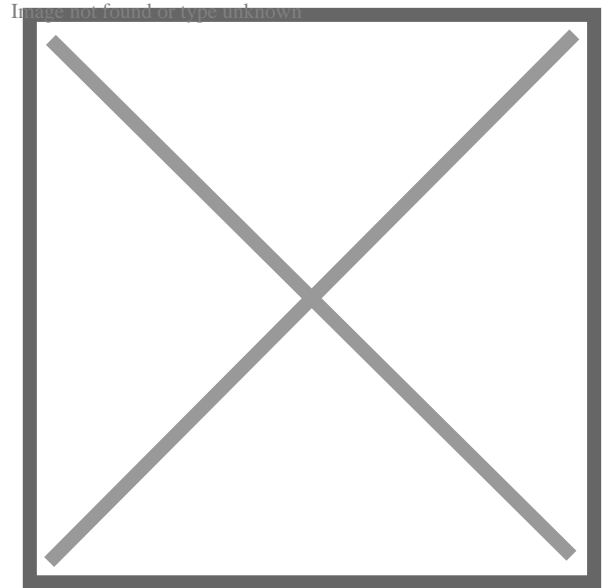

The Contact USB-A to USB-C cable allows you to quickly charge all your compatible devices with its supported power of up to 10 W. It also provides a data transfer rate of up to 480 Mbps, making it easy to sync your devices and efficiently transfer files of any type and size. A single cable with two indispensable functions.

Multidevice compatibility

This cable features one USB-A and one USB-C connector, providing maximum compatibility. At one end, the USB-A connector allows you to connect to any wall charger, computer or powerbank that has this port, using it as a charging source. At the other end, the USB-C connector, which is the current market standard, allows you to charge a wide range of devices, including smartphones, tablets, powerbanks and more.

1 metre of convenience

Contact's USB-A to USB-C cable not only stands out for its impressive charging and syncing capabilities, but also for its convenient length of 1 metre. With this extension, you can comfortably charge and sync your devices without worrying about distance at any time.
