

DESCRIPTION

This customisable poster is the ideal solution to effectively communicate the front and back phone protection service provided by the KSIX Plotter Machine. Designed to be placed behind the counter at any point of sale, this poster, which is also available in roll-up format, provides visual and written information to highlight the key points of the screen protectors created by the plotter machine. With customisable size and design, this poster adapts to the needs of any point of sale, ensuring that key attributes are clearly and attractively conveyed to engage with customers.
