

DESCRIPTION

A small car charger to provide maximum charging power to all your devices. Discover this multi-port charger that plugs into your car's lighter socket and features two inputs (USB-C and USB-A) so you can charge two devices simultaneously. Through the USB-C port you can benefit from fast charging with up to 20W and from the efficient Power Delivery (PD 3.0) charging technology, which will allow you to charge half of your smartphone's battery in just 35 minutes. Discover the best travel buddy for your car!

Power Delivery 3.0: charge your battery to 50% in just 35 minutes

The innovative ultra-fast charging protocol Power Delivery 3.0 (PD) built into the USB-C port offers countless benefits for you and for your smartphone. For compatible models, your device will receive the highest levels of power and charge up to 4 times faster than a conventional 5W charger: your smartphone will be charged to over 50% in just 35 minutes (Test conducted with a Samsung Galaxy Note 9. Approximate values depending on handset and battery capacity). In addition, it will detect the end of the charging cycle to stop transmitting energy, thus preventing the battery from overheating. An intelligent technology that takes care of the health of your battery and extends its lifespan to the maximum.

Discover fast charging with Quick Charge 3.0

Through the USB-A port you can also benefit from a fast-charging speed. Thanks to 18W of power and Quick Charge 3.0 fast charging technology, you can charge your compatible devices 3 times faster than a conventional 5W charger.

Two ports, endless possibilities

The KSIX Car Charger features two ports (USB-A and USB-C) for maximum compatibility with your devices and simultaneous charging. When using both ports at the same time, the power will be divided between the two. Benefit from a greater compatibility that will allow you to charge your iPhone 8 and later, your iPad Air and Mini Pro and a wide range of Huawei, Samsung, as well as other models within the allowed voltage range.

A fit for any vehicle

The 12-24V input power range of this charger makes it suitable for any vehicle, whether it is a small car, SUV, minivan or even a truck or bus - a great fit for any driver!

The highest power in a mini format

A charger that fits in every pocket. Thanks to its reduced weight and size, it is the ideal choice for use during your trip. Its flame-retardant casing features high quality components that ensure maximum safety and wear resistance, and the elegant black finish offers a premium design.

CE and RoHS certified

CE and RoHS certified, demonstrating the quality of our products through compliance with applicable European Community regulations and commitment to the 200/95/EC directive on the Restriction of certain Hazardous Substances in electrical and electronic equipment. A reliable guarantee against overheating, overvoltage and short circuits.

TECHNICAL SPECIFICATIONS.
