

DESCRIPTION

Charge your devices at full speed thanks to this KSIX wall charger. It offers a power up to 30 W, which makes it compatible with ultra fast charge. You can charge your devices quickly, efficiently and safely thanks to the technologies that it incorporates: Power Delivery and Programmable Power Supply. The best solution to charge the battery of your devices in a very short time!

Your battery at 50% in just 20 minutes

Thanks to its ultra-fast charging power of up to 30 W and the incorporation of intelligent technologies, such as Power Delivery and Programmable Power Supply, you can charge your phone from 0 to 50% in just 21 minutes*. This charger provides charging speed much faster than conventional chargers that will allow you to fill the battery of your devices in a very short time.

*Tests performed with an iPhone 14 Pro and a cable compatible with 30 W ultra fast charging and Power Delivery. Figures may vary depending on the device and battery capacity, as well as the device age and usage environment.

Includes Programmable Power Supply

This charger incorporates Programmable Power Supply technology, which offers much more efficient and controlled charging than conventional chargers by dynamically adjusting the power output to match the specific needs of the device in real time. This charging technology is compatible with devices such as Samsung Galaxy S20 Series, S21 Series, S22 Series and later; Samsung Galaxy Note 10+; Samsung Note 20 Series and later; Google Pixel 6 Series, 7 series and later; OnePlus 9 Pro; among others. The charger is also compatible with any device that incorporates USB-C or Lightning port.

Ultra fast charge with Power Delivery

This charger supports a power of up to 30 W, making it compatible with ultra-fast charging. In addition, it incorporates Power Delivery, a smart technology that provides a greater amount of power to devices in a controlled way, supplying much faster and more efficient charge than conventional chargers. This technology is optimized for iPhones, Samsung smartphones and other compatible devices.

USB-C charging standard

This charger incorporates a USB-C charging port, which is currently the fastest compatibility standard on the market. You will be able to charge any device that has a USB-C or Lightning port, from smartphones to laptops, tablets, wireless earphones, powerbanks and many more. With this charger you will have all your devices charged and ready to use.

Safety first

This charger's housing is 100% composed of polycarbonate plastic. This grants it a UL94 V-O flammability protection rating, the safest on the market. All this in a simple and elegant white design. It has a very small size and weight, which will allow you to take it where you go comfortably. Great power in a small size.

Technical specifications

- Input parameter: 100-240V
- Output parameters: 5V-3A / 9V-3A / 12V-2.5A / 15V-2A / 20V-1.5A

TECHNICAL SPECIFICATIONS.

Color	White
Input parameters	100-240V
Use	Home/Office
Type of charge	Ultra fast charge
Max. Output (W)	30W
Input connector	UK 3-pin
Technology	Power Delivery y PPS
Quantity of Type C ports	1
Shape	Ergonomic
Packaging	Recycled carton
