

DESCRIPTION

Charge all your devices quickly, safely and efficiently thanks to the GaN, PPS and Power Delivery technologies and up to 30 W of power from the KSIX USB-C wall charger. With a compact and lightweight design so you can take it with you on trips or wherever you go in complete comfort.

?

Features GaN technology

?

Driven by advanced GaN technology, the charger is composed of components made from gallium nitride. This material allows the charger to be compact in size and light in weight without compromising its power. In addition, it offers much more efficient charging than conventional chargers and generates less heat in the device. Cutting-edge technology in the palm of your hand.

?

PPS: Smart dynamic charging

?

Thanks to Programmable Power Supply technology, the charger offers much more efficient and controlled charging than conventional chargers by dynamically adjusting the power output to match the specific needs of the device in real time. This charging technology is compatible with devices such as Samsung Galaxy S20 Series, S21 Series, S22 Series and later; Samsung Galaxy Note 10+; Samsung Note 20 Series and later; Google Pixel 4 Series and later; among others. The charger is also compatible with any type of device with a USB-C or Lightning port.

?

Power Delivery fast charging

?

The charger features Power Delivery, a fast and efficient charging technology optimised for iPhone, Samsung and Xiaomi devices, which also offers compatibility with models from brands such as Google, Realme, OnePlus and many others. This charging technology offers significantly more power than conventional chargers, allowing you to charge your devices at maximum speed.

??

USB-C: The universal standard

?

The wall charger features a USB-C port, the industry's universal standard. This port offers fast charging with up to 30 W of power so you can charge your devices in a very short time. In addition, it provides full compatibility with all brands and devices, be they smartphones, tablets, headphones, powerbanks and more.

?

Compact design

?

The charger's housing is made of 100% polycarbonate plastic, a material that provides UL94-V0 flammability protection, the safest on the market. All this in a minimalist design in white with a mini format of only 3,2 x 3,2 x 7,2 cm and an ultra-light weight of 51 grams. This format enables the charger to fit perfectly in any pocket, backpack and handbag, making it the perfect choice for travel.

Technical specifications

- Input parameter: 100-240V
- Output parameters: USB-C 5V-3A / 9V-3A / 12V-2,5A / 15V-2A / 20V-1,5A
- Max. power: 30 W
