

## DESCRIPTION

The KSIX Halo ceiling light display, made from 100% recyclable cardboard, is the perfect tool to showcase this product at any selling point. Very easy to install thanks to its patented self-assembly system. In addition, it incorporates sales pitches and visual content to attract the final customer and boost sales.

### Customised design

The 148 x 46 x 50,5 cm POS display is specially designed to display KSIX Halo ceiling lights in the best possible way. It has 3 shelves, with capacity for 4 panels on the 2 lower shelves and 2 panels on the upper shelf. In addition, it incorporates a cardboard plate at its top with the most important attributes of the product.

### Patented assembly system

Its installation is quick and easy thanks to its patented automatic assembly system. In just 12 seconds the display is ready for the selling point; all without the need for tools or adhesives. It also comes with assembly instructions to make this task even easier.

### A sale-increasing tool

This display, specially designed for the KSIX Halo ceiling light, clearly communicates its functionalities and differential points through written and visual sales arguments.

### Sustainable material

Made from 75% recycled cardboard and 25% from FSC-certified forests, this display is environmentally friendly. In addition, it is 100% recyclable and free of plastics and solvents.
