DESCRIPTION

The KSIX MyTag is the perfect solution to keep track of all your items in real time. It is compatible with Apple devices and is controlled by the Find My app. Get the MyTag and stop wasting time looking for your lost items. It has a compact size and ultra light weight so you can attach it to any object with total comfort, whether it is your wallet, keys, purse or any other object.

Real-time tracking

With the MyTag you can keep your items located at all times. Thanks to its real-time location technology, you can track the exact location of your items using the Find My app. With the app you can make the MyTag ring thanks to its integrated speaker and make use of the Directions function to receive concise instructions on the location of your lost object.
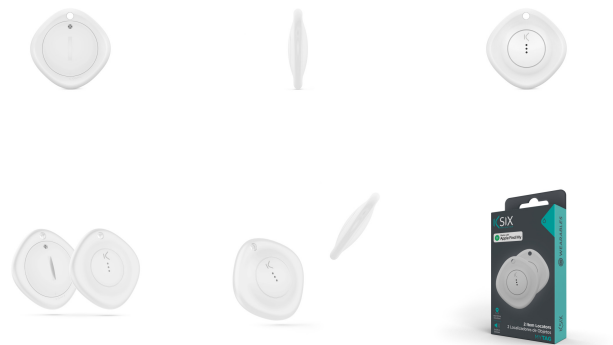

Compatible with Apple

The MyTag is compatible with Apple devices, whether it is an iPhone, iPad or Mac. It has compatibility with iOS 14.5, iPadOS 14.5 and MacOS 12.5 and later versions. Thanks to its Wireless 5.2 connectivity you will be able to sync it seamlessly with your Apple ecosystem. Download the Find My app to access all the MyTag features. It's also compatible with voice assistants so you can control all its functions with Siri using simple voice commands.

Optimal design for all your belongings

The MyTag has a compact size of 4,4 x 4,4 x 1,1 cm and an ultra light weight on only 10 grams. These features will allow you to attach it to any object, wheter it's your wallet, keys, purse or any other important object.

Fit for outdoor use

The MyTag has a very high water resistance thanks to its IP66 protection rating. For example, you can attach it to your bike if you leave it on the street and you won't have to worry about the MyTag no longer working due to heavy rain or any other adverse weather conditions.
