

DESCRIPTION

WINNER Eagle Pickleball is a racket that provides excellent performance on the court thanks to a combination of high quality materials and technologies. It has been designed for intermediate or beginner players with a wider rough hitting surface thanks to its 202 mm width.

Lightweight racket with a weight of 190 grams (/ -10) and a thickness of 13mm, the Eagle has been manufactured with polymer honeycomb and fiberglass in the planes of the racket, which gives it a softer feel, helping it to release the ball more and providing excellent control.
