

## DESCRIPTION

WINNER AX Pickleball for its slightly flared shape improves the sweet spot in the central hitting area, it is a racket that provides excellent performance on the court thanks to a combination of materials and high quality technologies. It has been designed for advanced to intermediate players.

With a weight of 230 grams (/ -10) and a thickness of 16mm, which gives it a great lightness, the AX has been manufactured 100% carbon, with a textured surface, for players looking for maximum spin and premium control inside is made with a reactive polymer honeycomb for a more pleasant feel and excellent control in the ball exit when hitting.

This model is available in three colour finishes: Red, Blue or Gold.

Ball certified by the USAPA (USA Pickleball Association) to be able to compete in any official tournament.
