

DESCRIPTION

Revolutionise your charge with the KSIX pack that includes a small, lightweight and efficient 20W USB-C charger and a 1m USB-C to USB-C charging cable. A powerful charger that will be your best buddy wherever you go. Its wide compatibility will allow you to charge your USB-C input devices at a speed 3 times faster than a classic 5W wall charger. With your your USB-C to Lighting cable (not included), you can also charge your iPhone 8 or later, iPad Pro and iPad Air and get all the benefits of Power Delivery (PD) technology. Charge all your devices quickly, safely and efficiently while keeping your battery health intact.

Charge your smartphone up to 50% in just half an hour

The 20W of power built into this charger will give you an ultra-fast charge that will leave your battery fully charged in no time at all. Save waiting time thanks to a charge 3 times faster than standard 5W chargers. Get ready to charge 50% of your battery in less than half an hour!

Longer battery life

The innovative ultra-fast Power Delivery (PD) charging protocol offers countless benefits for you and your smartphone. By intelligently adjusting your phone's input power and voltage, it prevents you from overcharging your battery. A technology that detects the end of the charging cycle, thanks to which you will never overheat your device again and keep your battery as healthy as it was on day one.

Optimal charging and syncing thanks to the included USB-C to USB-C cable

The multi-function USB Type-C to USB Type-C cable included in this pack opens up a world of possibilities. A reversible connector that will not only transfer the maximum charging power to your devices, but will also allow you to enjoy the fastest data transfer speeds so you can transfer your photos, movies or your favourite music to another USB-C enabled device in a flash.

A multi-device charger with universal compatibility

Charge all your pocket devices with this KSIX charger. With just one charger you can deliver the highest charging power to a wide range of Samsung, Xiaomi, Huawei, Xperia and Google Pixel models. Plus, if you're an iOS user, all you need to do to benefit from the advantages of Power Delivery (PD) technology is swap the charging cable for your USB-C to Lighting cable (not included). One fits all!

Compact, lightweight and durable

A charger that fits in any pocket. Thanks to its reduced weight and size, it is the ideal choice for use at home, while travelling or in the office. Its flame-retardant casing features high quality components that ensure maximum safety and wear resistance, and the elegant white finish gives it a premium design.

USB-C port: The new standard

The great usability and endless possibilities offered by the innovative USB-C standard will be the best ally for your smartphone. With a much faster speed than traditional USB-A, you will significantly reduce charging times and have an incredibly efficient, safe and versatile technology.
