

DESCRIPCIÓN

The KSIX Extreme Screen Protector is an excellent protection for your GoPro camera display. The tempered glass has a 9H resistance, the maximum in the scale, it absorbs impacts and resist shocks and drops. The tempered glass screen protector has a high transparency level and its only 0.3 mm thick. It provides the screen with anti-shatter and anti-scratch protection. KSIX tempered glass screen protectors are designed to fit perfectly on the action camera screen. The top layer includes an oleo-phobic treatment that repels, grease, dirt and liquids on the screen. It is very easy to apply.
